We invite you to the Groove Core Session, an event created by the scene for the scene, organized by people from the local community who know exactly what matters: genuine passion, mutual respect, and heavy music!

Deadnate from Denmark, plays progressive metal. You can expect technical grooves, big atmospheric riffs, layered vocals and a raw but precise sound. The band produces their own music and dives deep into the artistic process by working thoroughly with each song and each piece so that the music always remains uncompromising.

Soultax delivers high-energy groove metal/core from Hamburg. Their sound combines driving grooves, bone-crushing breakdowns, and lyrics that explore the darker depths of the human psyche. The result is their very own distinctive style: 'Groove Metal/core.

Crotis is a young band from Hamburg whose sound is defined by melodic riffs and dense atmosphere, all welded together by elements of modern black- and death metal. Uncompromising and atmospheric sound, in the way of Gaerea and Thy Art Is Murder.

Soulbleed, a groove-metal band from Hamburg. They want to draw more attention to the groove metal scene overall. The project is inspired by bands like Lamb of God and Gojira.
